

IMPREGNANT for fireplace slabs VARMSSEN®

PRODUCT NAME

IMPREGNANT
for fireplace slabs VARMSSEN®

DESCRIPTION OF PRODUCT

IMPREGNANT for fireplace slabs VARMSSEN® is made based on sodium silicate and microsilica. It is designed for impregnating the surface of VARMSSEN® slabs, glued with the adhesive ISOL GLUE +, in order to increase their adhesion. It is also used for diluting the adhesive for VARMSSEN® slabs - ISOL GLUE +. IMPREGNANT dampens perfectly the fibrous and hard ceramics as well as the slabs made of calcium silicate.

TECHNICAL PARAMETERS

CHEMICAL COMPOSITION	Na ₂ O, SiO ₂
PHYSICAL FORM	liquid
MAX TEMP. OF APPLICATION	1150 °C
FIRE CLASSIFICATION	A1 - non-flammable product
TOXICITY	non-toxic
COLOUR	colourless
ODOUR	none
PH VALUE	12

METHOD OF USE

Required tools: brush or painting gun.

In case of using the painting gun you should use the protective clothes, glasses and masks.

In case of applying the impregnant by means of the brush you should wear the rubber gloves.

After painting the surface of the slab you should wait minimum 3 minutes and after that time you can apply the system adhesive ISOL GLUE +.

PRODUCT PACKAGING

PACKAGING

plastic bottles with capacity of 1 litre

STORAGE

SHELF LIFE

6 months while following the storage restrictions

STORAGE

above temperature 0°C and below 30°C
preferably in the shaded areas.

ADDITIONAL INFORMATION
